8:30 am - 9:00 am	Opening session and greetings/announcements
9:00 am - 11:00 am	Expo Hall open - **Vendor Crawl**
11:00 am - 11:55 am	You've Been Hacked. Now What? Recovering After A Data Breach by **Alias Forensics**
12:00 pm - 1:30 pm	Lunch - provided by **Tangent**
1:30 pm - 2:25 pm	Automated Patch Management and Inventory Reporting by **PDQ.com**
2:25 pm - 3:00 pm	Networking Break / Prize Drawings / Vendor Expo Hall Closes
3:00 pm - 3:55 pm	Integrated Security by **TriCorps Technologies**
4:00 pm - 4:55 pm	Cyber Security Implications of America's Water Infrastructure Act (AWIA) by **True Digital Security**
5:30 pm - 10:00 pm	**Conference Social & Mixer** sponsored by **Digi** Cafe Garcia (outdoor patio) 324 S. Grand St. Enid, OK 73701

PRESENTATION SPOTLIGHT

Thursday, September 12, 2019

You've Been Hacked. Now What? Recovering After
A Data Breach by **Alias Forensics**

Presentation: 11:00 am - 11:55 am

In recent years, data breach incidents have become a nearly unavoidable threat to all types of businesses. Resiliency and planning are the keys to keeping your organization from being the next major data breach victim and headline for news outlets.

We will discuss the steps that risk, cybersecurity, HR and legal professionals alike can take to minimize the effects a data breach might have on your company, and preventative measures your organization can take to ensure you are doing as much as possible to protect yourself.

Automated Patch Management and Inventory
Reporting by **PDQ.com**

Presentation: 1:30 pm - 2:25 pm

In the age of Malware, it has never been more important to keep your systems patched and up-to-date. We'll show you how to find out what's installed, what needs to be updated and patched on your machines.

We'll demonstrate how to automate your patch management process, including third-party applications, so your machines are never out of compliance. We'll discuss hardware and software reporting and audits.

PRESENTATION **SPOTLIGHTS** *(CONT.)*

Thursday, September 12, 2019

Integrated Security by **TriCorps Technologies**

TRICORPS
CYBERSECURITY

Presentation: 3:00 pm - 3:55 pm

The Integrated Security Model involves five elements of security: physical security, surveillance, cybersecurity, governance, and the human firewall. In the past, many of these facets of security have worked in silos within an organization. This is no longer feasible to keep organizations safe from constantly evolving threats.

Each of these five elements must be working in cohesion to ensure your organization is as secure as it needs to be. This course will include an in-depth explanation of the Integrated Security Model. Executives and stakeholders will understand how they can assess their security risks while building integrated security into their own organizations.

Cyber Security Implications of America's Water Infrastructure Act (AWIA) by **True Digital Security**

true ⊕
DIGITAL SECURITY

Presentation: 4:00 pm - 4:55 pm

America's Water Infrastructure Act (AWIA) requires that all community water systems serving a population greater than 3,300 must assess their systems against risks to include cyber security risks, and make emergency response plans to address identified risks.

The purpose of this presentation is to make water systems managers aware of the law and to provide initial guidance on cyber security assessment needs.

NETWORKING OPPORTUNITIES

Thursday, September 12, 2019

Vendor Crawl

9:00 am - 11:00 am

The best advantage of vendors' and attendees' time, the OGITA conference committee dedicates time every year to a "vendor crawl" through the expo hall for attendees. Attendees are encouraged to spend approximately 5 minutes with every vendor - introducing themselves, talking about their organization, and familiarizing themselves with each vendors unique approach to modern technology challenges. Vendors will stamp a spot on each attendee's vendor crawl card. After having their entire card stamped by each vendor in attendance, attendees should turn in their card to be eligible for door prizes. Incomplete cards are disqualified from winning door prizes.

Vendors are encouraged to provide business cards, contact information, and product literature as time will naturally be limited. Many vendors and attendees will also have the opportunity to connect at the conference social in the evening.

Door Prizes

2:45 pm - 3:00 pm

In addition to the generous sponsorships provided by OGITA's network of vendors, each of these vendors will provide door prizes in addition to the grand prizes provided by the OGITA Conference Committee. Be sure to thank each vendor for their contribution and stop by each booth to check out their products and services.

Conference Social & Mixer

5:30 pm - 10:00 pm

Digi is sponsoring this year's Conference Social & Mixer which will be held on the patio at Café Garcia. Food, soft drinks, and alcoholic beverages will be provided for all attendees.

SPONSOR SPOTLIGHT

Thursday, September 12, 2019

Breakfast sponsored by **ABB**

7:30 am - 8:30 am

ABB offers robust and cost effective solutions for building communications links to physically disparate locations, Industrial Internet of Things (IIoT) end points and mobile devices across geographies that spans a few miles or thousands of miles. With a wide range of robust wireless communication products and services, ABB can meet the challenges of any environment.

Lunch sponspored by **Tangent**

12:00 pm - 1:30 pm

Tangent is a leading provider of specialized computers and cloud solutions. Our purpose-built computers are engineered for healthcare, industrial, and corporate applications not served by traditional computers. Products include medical grade all-in-one computers, mini rugged computers, and all-in-one panel PCs.

Conference Social & Mixer sponsored by **DIGI**

10:30 am - 11:55 am	sUAS Usage in Emergency Management Operations by **The City of Stillwater**
12:00 pm - 1:00 pm	Lunch provided by **Pioneer Telephone**
1:00 pm - 4:00 pm	Host City Tour: Atwoods Distributing Co. 5418 W Owen K Garriott Rd, Enid, OK 73703

PRESENTATION SPOTLIGHT

Friday, September 13, 2019

Adevntures in Fiber To The Home (FTTH)
by **The City of Ponca City**

Presentation: 8:30 am - 9:25 am

The story of "fiber to the home" in Ponca City is an interesting one. Hear how the project started, stopped and started again, plus discover what significant changes were made to ensure project success. From "the plan and the process" through "milestones," "go live" and "lessons learned," we'll explore the whole project, including what's next and what's after that.

Smart Cities presented by **Ruckus Networks**

Presentation: 9:30 am - 10:25 am

Smart Cities link devices, applications and people to enable, enhance and streamline city functions. In general…Smart Cities leverage technology to: evolve existing public services, enhance quality of life, improve city operations, and solve city challenges.

Ruckus Networks will be talking about how we use technologies like 802.11AX WiFi, IoT, and CBRS to connect devices together to create a Smart City and why it may be important to you.

PRESENTATION **SPOTLIGHT** *(CONT.)*

Friday, September 13, 2019

sUAS Usage in Emergency Management Operations
presented by **The City of Stillwater**

Presentation: 10:30 am - 11:55 pm

Learn about the process of getting and using a sUAS for Emergency Management
Operations. Hear about the legalities, additional workloads, and federal responsibilities. See
the end results with actual footage.
