OKLAHOMA GOVERNMENT INFORMAITON TECHNOLOGY ASSOCIATION ANNUAL 2017 FALL EDUCATIONAL CONFERENCE

Midwest City, Oklahoma
September 28th & 29th
Nick Harroz Midwest-City Community Center

THURSDAY SEPTEMBER 28TH CONFERENCE AGENDA

	Bomber Room	Titan Room	Expo Hall
7:30 A.M.— 8:30 A.M.	Breakfast Provided by **Pioneer Telephone**		Final Vendor Booth Setup
8:30 A.M.— 9:00 A.M.	Opening session and greetings; announcements		
9:00 A.M.— 12:00 P.M.			Expo Hall Open— **Vendor Crawl**
12:00 P.M.— 1:30 P.M.	Lunch **Provided by Dell** **Presentation from 12:30—1:00**		Expo Hall Booths Open
1:30 P.M.— 2:25 P.M.	Software Deployment and Inventory Strategies **Presented by PDQ**	The Evolution of Technology— Datacenter Edition **Presented by Interworks**	Expo Hall Booths Open
2:25 P.M.— 2:45 P.M.	Networking Break		
2:45 P.M.— 3:00 P.M.			Drawings & Giveaways
3:00 P.M.— 3:55 P.M.	Website Accessibility and Section 508 **Presented by Municode**	Case studies in technology for Interagency Emergency Communications **Presented by GeoSafe**	Expo Hall Closed
4:00 P.M.— 4:55 P.M.	Latest Cyber Threats and Techniques for Incident Response **Presented by Alias Forensics**	Using mobile devices as part of the phone system **Presented by Allworx**	
5:30 P.M.— 10:00 P.M.	**Conference Social & Mixer:** Midwest City Sheraton at the Reed Conference Center 5750 Will Rogers Rd, Midwest City, OK 73110 Jointly Sponsored by **Connected** & **Allworx**		

Dell Rugged Notebooks (Lunch Presentation & Sponsorship)

Lunch: 12:00 P.M. to 1:30 P.M.

Presentation: 12:30 P.M. to 1:00 P.M.

Demanding workplaces require professional tools. Dell Rugged notebook and tablet solutions allow you to stay focused on your work in any environment.

The Evolution of Technology – Datacenter Edition (Presented by Interworks)

1:30 P.M. to 2:25 P.M.

Since the inception of the datacenter, datacenter technologies have been constantly evolving. Join InterWorks to review how datacenter technologies have evolved, from the very beginning to the current state. Once we're to the "here-and-now" we will give you a few examples of what's coming up in the near future, so that you can be prepared to handle the challenges of tomorrow.

Case studies in technology for Interagency Emergency Communication (Presented by Geosafe)

3:00 P.M. to 3:55 P.M.

In an emergency, seconds count. There is currently a disconnect between first responders inside and especially outside their jurisdictions, hindering their ability to be situationally aware of emergencies and other law, fire, and EMS units around their area. This puts responders at unnecessary risk and inflates response times, thus putting communities at greater risk. There is simple technology that can bridge everyone and everything together, allowing for the communication of critical data to the field and even to neighboring agencies on different dispatch systems. This course will highlight several case studies of Oklahoma agencies using interagency software.

Using mobile devices as part of the phone system (Presented by Allworx)

4:00 P.M. to 4:55 P.M.

We would like to discuss how our phones system provides a unique mobility tool that enable a user to use any mobile device and/or tablet as their work phone device with little cost and extremely easy to use.

Software Deployment & Inventory Strategies (Presented by PDQ)

1:30 P.M. to 2:25 P.M.

As makers of software deployment and computer inventory tools, we understand the critical importance of ensuring that the systems in your environment are up to date. The increased incidents and spread of malware, pose ever increasing threats to your environments. Our products simplify the process of identifying and patching out of date applications, thus improving your overall security.

In our presentation we will cover:

• How to inventory your computers and identify which systems have out of date applications.

• How PDQ Deploy and PDQ Inventory can automate your patch management process, including third party applications. This saves the sysadmins hours of time and allows them to work on other projects.

• Ease of operation and multifunctionality of PDQ Deploy and PDQ Inventory.

• Our package library of over 100 pre-built packages up-to-date and ready to deploy.

• 10 minutes of questions and answers.

Website Accessibility and Section 508 (Presented by Municode)

3:00 P.M. to 3:55 P.M.

Learn best practices for taking your website from good to great. Discuss content strategy, citizen engagement, accessibility, security, mobile-friendliness, records retention, social media integration and more

Latest Cyber Threats and Techniques for Incident Response (Presented by Alias Forensics)

4:00 P.M. to 4:55 P.M.

Some of the latest threats we will be presenting over would be rogue employees, social engineering methods such as phishing, whaling, pretexting & in-person encounters, and we will also include malwares such as ransomware and DDOS attacks & botnets.

On the incident response side, we will go over policies, and ways to test & train employees, and what to do in the event of a cyber incident.

Vendor Crawl Information

9:00 A.M. to 12:00 P.M.

In an effort to take best advantage of vendors' and attendees' time, the OGITA conference committee dedicates time every year to a "vendor crawl" through the expo hall for attendees. Attendees are encouraged to spend approximately 5 minutes with every vendor, introducing themselves, talking about their organization, and familiarizing themselves with each vendors unique approaches to modern technology challenges. Vendors will stamp a spot on each attendees vendor crawl card. After having their entire card stamped by each vendor in attendance, attendees should turn in their card to be eligible for door prizes. Incomplete cards are disqualified from winning the specified door prizes.

To remind attendees and vendors of time limitations, a timer will be present along with a buzzer or horn. This is merely a guideline and is just a reminder, not a rule. Attendees are, of course welcome to network and discuss at any time that vendors are present and for any length of time. To keep vendors from being overwhelmed

Vendors are encouraged to exchange business cards, contact information, and product literature as time will naturally be limited. Many vendors and attendees will also have the opportunity to discuss more in-depth at the conference social in the evening.

Door Prizes

2:45 P.M. to 3:00 P.M.

In addition to the generous sponsorships provided by OGITA's network of vendors, each of the vendors will provide door prizes in addition to the grand prizes provided by the OGITA Conference Committee. Be sure to thank each vendor for their contribution, and stop by each booth to check out their products and services as well!

Conference Social & Mixer
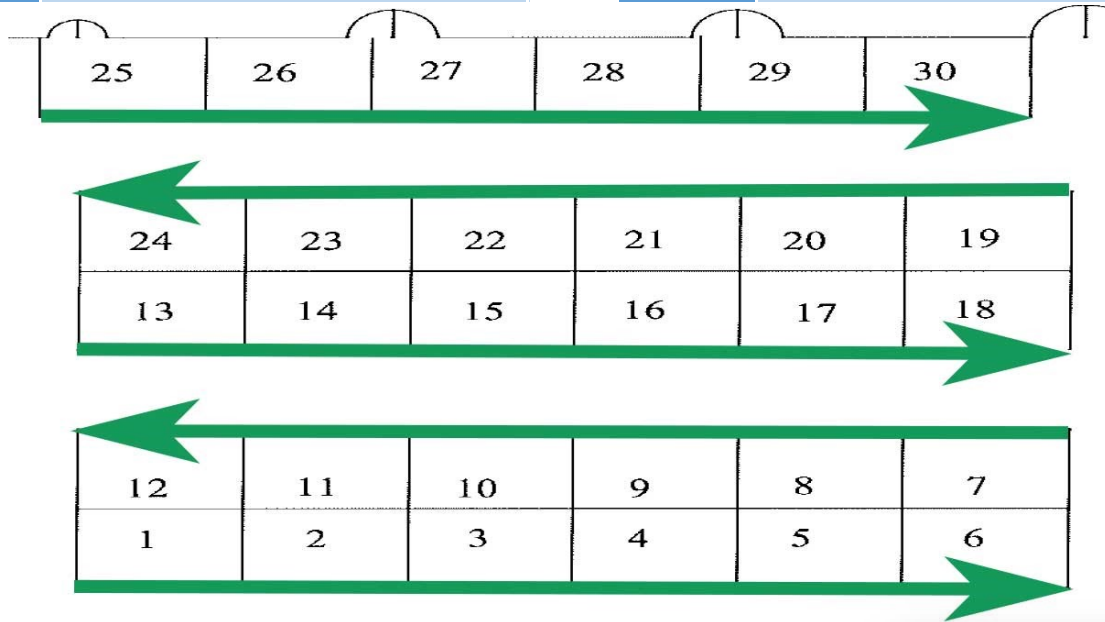

5:30 P.M. to 10:00 P.M.

This year's Conference Social & Mixer will be held in a private event room at the Midwest City Sheraton at the Reed Conference Center. Food, soft drinks, and alcoholic beverages will be provided for all attendees. Vendors are invited to join us, but please make sure to especially thank this year's sponsors, Connected and Allworx.

Expo Hall Booth Chart

OKLAHOMA GOVERNMENT INFORMAITON TECHNOLOGY ASSOCIATION
ANNUAL 2017
FALL EDUCATIONAL CONFERENCE

Midwest City, Oklahoma
September 28th & 29th
Nick Harroz Midwest-City Community Center

FRIDAY SEPTEMBER 29TH CONFERENCE AGENDA

	Bomber Room
7:30 A.M.—8:30 A.M.	**Breakfast** Provided by **SkyHelm Technology**
8:00 A.M.—8:30 A.M.	OGITA Annual Business Meeting
8:30 A.M.—9:25 A.M.	**Member Presentation:** Security Procedures & Responses Julia Brown, City of Enid
9:30 A.M.—10:25 A.M.	Overview of OMACS P25 Hosted Communications Network **Presented by Stolz Telecom**
10:30 A.M.—11:55 A.M.	**Member Presentation:** Virtualization & Open Source Matthew Schratwieser & Allen Stephenson, City of Midwest City
12:00 P.M.—12:55 P.M.	**Lunch** Provided by **ImageNet** **Presentation from 12:15—12:45**
1:00 P.M.—4:00 P.M.	**Host City Technology Showcase**: Midwest City's Police Use of Force Simulator Training Midwest City Police Department Lobby/Reception Area (Secured Access will be granted as a group)

Security Procedures & Responses (Presented by City of Enid)

8:30 A.M. to 9:25 A.M.

In our Security Procedures & Responses session, we will go over setting up a security response policy, cover some common attack vectors, and what you should do to mitigate such attacks. Finally, we will discuss some real world incidents that have happened right here in Oklahoma.

Overview of OMACS P25 Hosted Communications Network. (Presented by Stolz Telecom)

9:30 A.M. to 10:25 A.M.

The OMACS trunked network is an IP-based digital system specifically designed to provide P25 open standards compliant mission-critical communications across the State of Oklahoma. The OMACS P25 trunked network is extremely resilient, with multiple levels of redundancy for reliable communications you can depend on.

Virtualization & Open Source (Presented by City of Midwest City)

10:30 A.M. to 11:25 A.M.

This class will provide a high level overview of current virtualization technology. We will discuss the benefits to virtualization along with the challenges Midwest City has faced during their implementation and operation of their VMware environment.

ImageNet Consulting (Lunch Presentation & Sponsorship)

Lunch: 12:00 P.M. to 12:55 P.M.

Presentation: 12:15 P.M. to 12:45 P.M.

Imagenet Consulting provides information solutions that assist companies with document life-cycle management creating organizational efficiencies and lowering costs.

Host City Technology Showcase: Midwest City Use of Force Simulator

1:00 P.M.— 4:00 P.M.

The City of Midwest City will provide a demonstration of their Police Department Use of Force simulator. The system detects lasers projected from specially modified sidearms and non-lethal weapons to train police staff on real-world scenarios, including when to use force and target practice. Each person will have an opportunity to participate in a use of force simulation.

Quick Fact Sheet / Frequently Asked Questions

What is OGITA?

The Oklahoma Government Information Technology Association (OGITA) is a not-for-profit group which was formed in 2007 as a professional resource for the exchange of information, resources, knowledge, and experience. Membership is open to any employee of a government or public entity statewide. Members may be IT Professionals or those who support computers or software as a secondary role in their organization. Currently our members come from more than 75 cities in and around Oklahoma as well county, tribal, and state offices.

Why should I join OGITA?

With an OGITA membership, you and your organization will be able to tap into the knowledge and experience of IT professionals from across the state through our website (www.ogita.org), e-mail listserv, annual educational conferences in the fall, monthly roundtable forums or vendor led discussions.

How do I join OGITA?

Go to our membership signup page at **http://www.ogita.org/index.php/signup** and submit the form available there.

How often does OGITA Meet?

OGITA meets monthly at various host locations throughout the state. Our website will provide details of upcoming meetings. Lunch arrangements are announced in advance of the meeting and are usually free. The annual conference is also free and is one of the most widely attended Information Technology conferences in the state.

Do I belong in OGITA? I'm not an IT person, but I often help others with their computer equipment and/or software, (e.g., a city clerk, treasurer, or librarian).

Yes! You have great experience and information to share. We want to hear your voice and know what has worked for you and what you may be working on. In addition you can take advantage of the experience and knowledge of others in the group.

We hope that you will take advantage of these resources and become involved with the group in whatever way benefits your organization.
